

Description

The test equipment presented is developed to meet with latest safety regulations concerning bending testing in ladders. Easy to operate and adjust between different size ladders. This equipment is hydraulically actuated and electronically controlled.

Benefits

- Simplicity of use
- Easy and quick adjust between different ladders
- Separated support table for easy adjust
- Flexible

Features

- Hydraulically actuated and electronically controlled
- Programmable for different cycles of operation
- Human machine interface (HMI) integrated
- Load cell with capacity up to 300 kg
- Linear encoder to deflection measure up to 700mm

Technical data

- Hydraulic pressure: 150 bar
- Power: 1.5 kW
- Voltage: 400 V, 3 Phase, 50Hz / 60Hz
- Dimensions: 2500 x 750 x 800 (mm)
